General Operating Comments
In the third quarter, the Company continued to execute strategic plans to build on its dedication to customer service and investments for long-term growth. Investments in the core businesses include a renewed emphasis on recurring monthly pest control, increased focus on Commercial opportunities, and expanding the number of locations.

Revenues for the third quarter ended September 30, 1996 increased \(0.1 \%\) or \(\$ 0.2\) million, to \(\$ 162.5\) million from the prior year period. Operating income decreased \(\$ 0.5\) million to \(\$ 6.3\) million for the quarter, while net income decreased \(4.3 \%\) to \(\$ 3.3\) million. Earnings per share were 9 cents, equal with last year. (Net income and earnings per share decreased 69.7\% and 70.0\%, respectively, excluding the prior year Special Charge of \(\$ 12\) million or \(\$ 7.4\) million and \(\$ .21\) per share on an after tax basis). For the nine months ended September 30, 1996, net income decreased \(30.4 \%\) to \(\$ 22.5\) million and earnings per share were 63 cents versus 90 cents last year. (Excluding the prior year Special Charge, net income decreased \(43.4 \%\) and earnings per share decreased 43.2\% compared to the nine month period last year).

For the quarter, Orkin's operating income decreased \(63.7 \%\) to \(\$ 6.2\) million on a . 5\% revenue increase to \(\$ 144.0\) million. Operating margins were 4.3\%, compared to \(12.0 \%\) in the prior year. Rollins Protective Services' (RPS) operating income decreased \(69.5 \%\) to \(\$ 0.4\) million on a revenue increase of \(\$ 0.4\) million or \(2.8 \%\) to \(\$ 16.0\) million. RPS' operating margins were \(2.6 \%\) compared to \(8.7 \%\) last year.

For the nine months ended September 30, 1996, Orkin's revenue increased 0.4\% with operating income declining 40.4\%. Operating margins were 8.9\%, compared to \(15.1 \%\) for the same period last year. RPS revenue increased \(6.4 \%\) while operating income decreased 24.1\%. Operating margins declined from 9.3\% to \(6.6 \%\). Detail segment information follows.

Orkin 1996 Versus 1995
Orkin realized an increase in pest control revenue, termite renewal revenue, and its customer base. However, these gains were offset by a decrease in termite sales revenue resulting from the lagging effect of a disappointing termite season. The termite business continues to be an important part of Orkin's business mix, however Orkin will continue its strategic marketing and customer service programs toward expansion of the less weather sensitive recurring pest control segment. To augment the positive results in the recurring pest control business, a Commercial Pest Control Division was created during the second quarter.

The decrease in operating income was the result of branch and region openings, operating insurance costs, and termite claims. Business development activities included 27 new branch and franchise openings during the first nine months, compared to 14 for all of 1995.

6 of 10
Rollins Protective Services (RPS) 1996 Versus 1995
During the third quarter, RPS continued to focus on the System VII product sales, Commercial sales and service initiatives, as well as cross-marketing opportunities from the National Customer Support Center.

RPS operating margins were negatively impacted by investments in new, dedicated commercial branches, related market development, and costs associated with acquisitions during the last twelve months.

Other 1996 Versus 1995

Other businesses' revenue and operating income decreased for the quarter due to revisions of the Company's credit and internal operating policies within the consumer finance area, Rollins Acceptance Company (RAC). The volume of Company financed sales is lower than last year as the revised policies redirected marketing efforts toward stronger customer demographics in conjunction with a lower termite demand.

The expanded physical facility, increased collector headcount, and new computers and phone dialing equipment caused margin deterioration, however these investments have better positioned RAC to more effectively manage the receivables portfolio and function as a marketing support operation.

Months Ended)

7 of 10
Rollins, Inc.'s financial position remained solid. The Company's operations have historically provided a strong positive cash flow which represents the Company's principal source of funds. Management believes that this liquidity, along with expected cash from operations, will support the Company's continued growth, capital expenditures, cash dividends, and expansion plans.

Interest income increased 19.8\% for the nine months ended September 30, 1996 due to the increase in average funds invested in short-term investments and marketable securities, coupled with the increase in the average rate of return.

Net trade receivables decreased \(\$ 4.1\) million or \(4.7 \%\) at September 30,1996 compared with December 31, 1995. Trade receivables include installment receivables which are due subsequent to one year from the balance sheet date. These amounts were approximately \(\$ 18.8\) million and \(\$ 26.2\) million at September 30, 1996 and December 31, 1995, respectively.

During the nine month period, the Company invested \(\$ 14.7\) million in capital expenditures and acquisitions. Also, \(\$ 15.5\) million was paid out in cash dividends. The Company maintains a \(\$ 40.0\) million unused line of credit. This source of funds has not been used, but is available for future acquisitions and growth, if needed.

Subsequent to the third quarter ended, September 30, 1996, the Company completed the repurchase of \(1,000,000\) shares of its common stock, authorized on November 21, 1995. Furthermore, the Board of Directors authorized the purchase by the Company of up to an additional 2,000,000 shares of its common stock. The purchases will be made from time to time using funds already on hand.
